# ABOUT US

**Welcome to Countryside Barns!** We are a family owned and operated business that was started in 2009. Our company is based upon strong values and strives to maintain a business reputation of honesty, integrity and trust. Every effort is made to not only earn your trust, but to also maintain your trust by “being as good as our word” and “treating our customers the way we would want to be treated.”

We believe that building structures of unmatched quality and providing the best customer service are the most important things we can do for you, our customer. We strive to achieve this by using top quality materials, caring craftsmanship, and personalized service. We also believe every building should be constructed as if we were building it for ourselves. Because we are a manufacturer selling directly to the public, we are able to oversee and manage the entire process from design, to manufacturing, to installation and delivery. This ensures that you, the customer, receive the best service possible.

Countryside Barns offers a full array of quality structures for any property—from storage sheds, garages, chicken coops, garden sheds, man caves, she sheds, private offices, cabins, hunting cabins, and even finished out cabins. We gladly help you customize your building so that you have a quality structure to meet your specific needs; one that you and your family will enjoy for many years to come.

Find out more about us at [www.countrysidebarns.com](http://www.countrysidebarns.com) or stop by and meet one of our friendly, professional sales representatives. Thank you for considering Countryside Barns! We look forward to working with you!

# LOFTED GARDEN SHED

The Lofted Garden Shed is our most popular storage building! With two overhead lofts there is much additional storage space. The large double doors on the side of the building allow for easy access to the entire building. This building can also be used as a workshop or pool house!

10'x16' Lofted Garden Shed; LP® SmartSide® (Painted Navy & White); Estate Gray Shingles

10'x16' w/ LP® SmartSide® (Driftwood Urethane); Black Metal Roof

10'x20' w/ Oxford Blue Vinyl Siding, Estate Gray Shingles

## STANDARD FEATURES include:

- ▶ 2 loft areas
- ▶ 2 - 2'x3' windows (8'x12', 10'x12', 12'x12' only have 1 window)
- ▶ Double 3' Doors (70" w x 71" h opening)
- ▶ 76.5" sidewalls (taller option available)
- ▶ Limited Lifetime Warranty shingles and metal roofing
- ▶ Double top plates on ALL walls
- ▶ T-Handle with lock and key
- ▶ 1"x4" trim on doors, windows and corners
- ▶ Aluminum drip edge
- ▶ 2"x4" studs 16" on center (excludes buildings with T1-11 treated siding)
- ▶ 4"x6" pressure treated skids and pressure treated floor joists 16" on center

### STANDARD BUILDING HEIGHTS

# LOFTED SIDE PORCH CABIN

The Lofted Side Porch Cabin would make a great home or a home away from home! The lofts add so much character and extra storage space. Fill the lofts with totes and boxes or use the space for sleeping bags during a sleepover! Sit on the full length porch and talk away the hours on a cool summer evening or relax inside and enjoy the warmth of friends and family on a cold winter day!

14'x44' Lofted Side Porch Cabin; LP® SmartSide® (Painted Rustic Red & Burnished Slate); Burnished Slate Metal Roof (Shown With Optional Wainscoting)

## STANDARD FEATURES include:

- ▶ 2 loft areas
- ▶ 1-36" exterior 9-lite door with lock and key
- ▶ Limited Lifetime Warranty metal roofing
- ▶ 80.5" sidewalls
- ▶ 2"x4" studs 16" on center
- ▶ Double top plates on ALL walls
- ▶ 4"x6" pressure treated skids and pressure treated floor joists 16" on center (heavy-duty floor option available)
- ▶ 6' porch with treated posts and decking runs entire length of building
- ▶ 1"x4" trim on doors, windows and corners
- ▶ Aluminum drip edge

# CONSTRUCTION DETAILS

## ROOF SYSTEM

*ALL roofs are built with trusses every 24" on center and 7/16" sheathing with Limited Lifetime warranty shingles or metal.*

## TRUSS PLATES

*We use steel truss plates on all trusses and door frames.*

## LOFT AREAS

*All lofted buildings have two loft areas; one on each end of the building with an open access area between the two lofts. Lofts are built with 2"x4" or 2"x6" loft joists and sheathed on top to make a nice loft floor.*

## FRAME CONSTRUCTION

*Framing consists of 2"x4" studs every 16" on center. Buildings with treated T1-11 siding have studs every 24" on center except for cabins which are also 16" on center.*

## DOUBLE TOP PLATES

*ALL walls are constructed with double top plates that interlock with adjacent walls. (Loft Joists interlock on Lofted style buildings.*

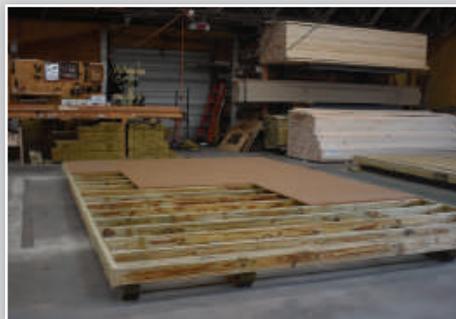

## DOORS

*Our 2"x4" reinforced doors are designed to seal out rain and rodents. Key locked for your protection.*

## TREATED SKIDS

*We use 4"x6" treated skids that are notched to securely hold the floor joists.*

## FLOOR CONSTRUCTION

*With our 4"x6" skids, treated 2"x4" or 2"x6" floor joists and 5/8" or 3/4" LP Prostruct flooring, we have one of the strongest floor systems in the industry. Our floors should never rot out!*

## DIAMOND PLATE THRESHOLD

*All buildings have a steel diamond plate threshold to protect the entrance and keep moisture out.*

# PREPARING YOUR SITE & DELIVERY PROCESS

## SITE PREPARATION

It is the customer's responsibility to obtain any/all necessary permits and follow zoning requirements. Countryside Barns recommends using a 4"-5" gravel base for your building. *(see picture on right)* Note: Watch video on website

The site where the building will be placed should be level and ready for the building prior to delivery.

## DELIVERY

To offer you the best possible delivery service, we oversee and control the entire process—from scheduling the delivery date and time to owning our own delivery equipment and employing our own professional delivery drivers. Using our state-of-the-art equipment, your new building will be carefully placed on your readied site by our delivery experts. We use a special machine, called the Mule, that minimizes the impact on your manicured lawn.

Countryside Barns is glad to offer FREE delivery and set-up of your building within 100 miles of our main office and manufacturing facility in Eureka, IL. Upon completion of your building, we will call you to schedule a delivery date and time.

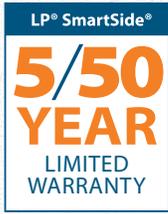

## STANDARD FREE DELIVERY AND SET-UP REQUIRES:

1. Ability to access your location.
2. Any openings we need to take your building through should be at least one foot wider than the building width.
3. A relatively level site for your building.

# OUTDOOR BUILDING SOLUTIONS

## Treated to the Core with SmartGuard®

Every LP® SmartGuard® product is manufactured with our proprietary SmartGuard process to help resist damage from harsh environments, fungal decay and termites. Learn more about the four key components of protection by visiting [www.LPShed.com](http://www.LPShed.com).

## Tested To The Extreme In Hilo, Hawaii Since 1996

LP SmartSide products have proven their toughness after 20 years of being subjected to the harsh jungle environment.

Intense Humidity

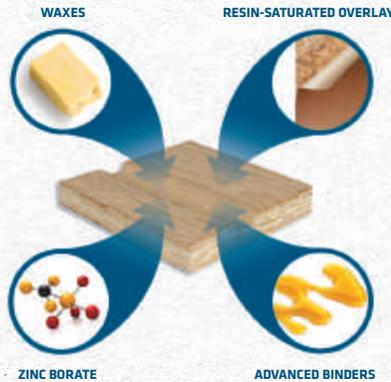

170" Annual Rainfall

High Formosan Termite Population

Ideal Conditions for Fungal Decay

## A Warranty That Protects Your Peace of Mind

LP® Outdoor Building Solutions® treated engineered wood products offer outstanding durability and beauty to give you quality you can see inside and out. And all LP® SmartSide® products are backed by one of the best warranties\* in the industry.

See [LPShed.com](http://LPShed.com) for complete warranty details
